Project Context

Vicopisano is part of the County Council of Pisa, about 18 Km away from Pisa town; it covers a surface of 26,92 sq.Km. and its population is about 8,000.

The Rural District of Vicopisano lies entirely between the river Arno, which marks all its southern border, and the 'Monte Pisano'. The dualism mountain/river has been one of the distinguishing features which have marked the History of its urban agglomerations. For centuries, the inhabitants

have been living on activities linked to the exploitation of these so different but yet complementary environments: the Mountain, which gave water and wood, the products of the forest and of the olive grove; stones were used for dwellings, churches and palaces, as well as for millstones and terracings for the olive trees. The River, which has always been the main means of transport, vital link to Pisa, Leghorn and Florence, and therefore a great source of profit for generations of

boatmen and fishermen. The many remarkable architectural sights and beautiful landscapes present in the district of Vicopisano have made it, in the last years, a popular destination for national and international tourism; and the position of the village at the slopes of Monte Pisano with its mixture of pine woods, oak trees, and also of bare, calcareous rocks has increased the interest of visitors. Vicopisano is easily reachable from any part of Tuscany and is very close to the International Airport of Pisa.

Vicopisano is a town lived all year: residents are an integral part of its authenticity, of its personality and daily story. Vicopisano is a living town, animated every month and every season from many events and cultural, music, food and wine initiatives: the Medieval Festival that takes place every first weekend of September, is the most important event that animates the town and all its corner with historical groups, camps and medieval jousts, itinerant musicians and themed theater.
